# SUBJECT INDEX TO VOLUME 25 (1984)—DIAGNOSIS

### Central nervous system (incl. skull)

CSF cation changes following subarachnoid injection of iohexol and metrizamide in rabbits . . . . . 65
Intracranial hemorrhage in hemophilic children—CT follow-up . . . . . 161
Radiography of the temporomandibular joint in female patients with TMJ pain or dysfunction—A seven year follow-up . . . . . 169
Psychologic tests in the evaluation of psychic changes after myelography with metrizamide . . 257
Lumbar myelography with iohexol and metrizamide—A double-blind clinical trial . . . . . 365
Psychic changes following myelography with metrizamide and iohexol—A comparative investigation with psychologic tests . . . . . 369
Orbital phlebography in patients with Tolosa-Hunt's syndrome in comparison with normal subjects . . 457
High-resolution computed tomography of the osseous temporomandibular joint—Some normal and abnormal appearances . . . . . 465
Lumbar myelography with metrizamide in rabbits —An investigation of contrast media penetration and resorption . . . . . 517

### Ear, nose, throat and eye

Maxillo-nasal dysplasia (Binder syndrome) and associated malformations of the cervical spine . . . . 353
Sialography and CT-sialography in the diagnosis of parotid masses . . . . . 361

### Bones, joints and soft tissue

Radiographic measurements of the cranio-vertebral region—Designed for evaluation of abnormalities in rheumatoid arthritis . . . . . 23
Degree of vertebral wedging of the dorso-lumbar spine . . . . . 29
Arthro-osteo-renal dysplasia—Report of a case . . . 39
Bladder capacity, urethral sensation and lumbosacral anomalies in children with enuresis . . . . . 45
Radiography of healing dialysis osteodystrophy . . 107
Vertical dislocation of the C1 and C2 vertebrae in rheumatoid arthritis . . . . . 133
Arthrography of the dislocated elbow joint . . . . . 143
Width of the normal ankle joint . . . . . 147
Omnipaque and Urografin in arthrography of the knee . . . . . 151
Atlanto-occipital dislocation in rheumatoid arthritis 165
Femoral anatomy described in cylindrical coordinates using computed tomography . . . . . 209
Clinical comparison of bone scintigraphy with $^{99}Tc^{m}$-DPD, $^{99}Tc^{m}$-HPD and $^{99}Tc^{m}$-MDP . . . 217
Ischemia of the childhood femoral and humeral head epiphyses following osteomyelitis—A hypothesis on its cause . . . . . 269
Radiographic assessment of anatomic deviations in lumbar spondylolysis . . . . . 317
Tibial torsion measured by computed tomography . 325
Maxillo-nasal dysplasia (Binder syndrome) and associated malformations of the cervical spine . . . . 353
Prognostic radiographic aspects of spondylolisthesis 427
Computed tomography of the knee with reference to meniscal tears—A preliminary report . . . . . 433
Recording of bone marrow activity in liver-spleen (RES) scintigraphy . . . . . 477
Lateral and anterior instability in acute ankle distortions—A radiographic investigation . . . . . 507
Ultrasonographic examinations of muscle haematomas in hemophiliacs . . . . . 513
Age related changes in tumor vascularity—Angiography and vascular casts of the $VX_2$ tumor in the rabbit hind leg . . . . . 529

### Cardiovascular system

Computed tomography versus aortography for preoperative evaluation of abdominal aortic aneurysm 95
Angiographic estimation of poststenotic jet kinetics in aortic valve stenosis . . . . . 185
Iohexol in coronary angiography—A double blind investigation . . . . . 243
Heart volumes in healthy middle-aged men—A seven-year prospective investigation . . . . . 277
Stripping of the deep circumflex iliac artery—A rare complication to percutaneous catheterization of the femoral artery . . . . . 283
Diameter and pulsatile oscillations of the femoral artery recorded by ultrasound . . . . . 313
Magnetic resonance imaging of vascular lesions in children—Assessment of flow patterns . . . . . 449

### Respiratory system

Ossification and calcification of the laryngeal skeleton . . . . . 17
Bronchial and intercostal angiography with ioxaglate and diatrizoate in man—A comparative investigation . . . . . 49
Value of chest radiography in adult respiratory distress syndrome . . . . . 177
Visual detection and physical characteristics of roentgenographic systems—Investigation on chest imaging chains . . . . . 439

# SUBJECT INDEX TO VOLUME 25 (1984)—DIAGNOSIS

### Central nervous system (incl. skull)

CSF cation changes following subarachnoid injection of iohexol and metrizamide in rabbits . . . . . 65
Intracranial hemorrhage in hemophilic children—CT follow-up . . . . . 161
Radiography of the temporomandibular joint in female patients with TMJ pain or dysfunction—A seven year follow-up . . . . . 169

Omnipaque and Urografin in arthrography of the knee . . . . . 151
Atlanto-occipital dislocation in rheumatoid arthritis 165
Femoral anatomy described in cylindrical coordinates using computed tomography . . . . . 209
Clinical comparison of bone scintigraphy with $^{99}Tc^{m}$-DPD, $^{99}Tc^{m}$-HPD and $^{99}Tc^{m}$-MDP . . . 217
Ischemia of the childhood femoral and humeral head epiphyses following osteomyelitis—A hypothesis on its cause . . . . . 269
Radiographic assessment of anatomic deviations in lumbar spondylolysis . . . . . 317
Tibial torsion measured by computed tomography . 325
Maxillo-nasal dysplasia (Binder syndrome) and associated malformations of the cervical spine . . . . 353
Prognostic radiographic aspects of spondylolisthesis 427
Computed tomography of the knee with reference to meniscal tears—A preliminary report . . . . . 433
Recording of bone marrow activity in liver-spleen (RES) scintigraphy . . . . . 477
Lateral and anterior instability in acute ankle distortions—A radiographic investigation . . . . . 507
Ultrasonographic examinations of muscle haematomas in hemophiliacs . . . . . 513
Age related changes in tumor vascularity—Angiography and vascular casts of the $VX_2$ tumor in the rabbit hind leg . . . . . 529

### Cardiovascular system

Computed tomography versus aortography for preoperative evaluation of abdominal aortic aneurysm 95
Angiographic estimation of poststenotic jet kinetics in aortic valve stenosis . . . . . 185
Iohexol in coronary angiography—A double blind investigation . . . . . 243
Heart volumes in healthy middle-aged men—A seven-year prospective investigation . . . . . 277
Stripping of the deep circumflex iliac artery—A rare complication to percutaneous catheterization of the femoral artery . . . . . 283
Diameter and pulsatile oscillations of the femoral artery recorded by ultrasound . . . . . 313
Magnetic resonance imaging of vascular lesions in children—Assessment of flow patterns . . . . . 449

### Respiratory system

Ossification and calcification of the laryngeal skeleton . . . . . 17
Bronchial and intercostal angiography with ioxaglate and diatrizoate in man—A comparative investigation . . . . . 49
Value of chest radiography in adult respiratory distress syndrome . . . . . 177
Visual detection and physical characteristics of roentgenographic systems—Investigation on chest imaging chains . . . . . 439

**Digestive tract**

CT staging of oesophageal carcinoma . . . . . 7
Hydrostatic reduction of childhood intussusception—The role of adjuvant glucagon medication . 261
Conventional abdominal radiography as a means to rule out ileo-caecal intussusception . . . . . 265
Techneitum pertechnetate scintigraphy to detect ectopic gastric mucosa in Meckel's diverticulum . . 417
Radiology in primary gastric lymphoma . . . . . 481
Ultrasound in preoperative staging of rectal tumours 489

**Liver, biliary tract**

Umbilical and paraumbilical veins in ligamentum teres—Their significance in portal hypertension . . 1
Cranio-caudal movements of the liver, pancreas and kidneys in respiration . . . . . 129
Intravenous computed tomographic cholangiography in acute cholecystitis—A comparison with conventional cholangiography . . . . . 289
Segmental hepatic arterial occlusion with absolute ethanol in domestic swine . . . . . 331
Ultrasonography in the diagnosis of acute cholecystitis . . . . . 379
Unidentified liver metastases at ultrasonography or computed tomography . . . . . 385
Transcatheter embolization of splanchnic arterial aneurysms—Report of two cases . . . . . 391
Effect of ioxaglate on the liver and pancreas following selective visceral angiography in man . . . . 395
Recording of bone marrow activity in liver-spleen (RES) scintigraphy . . . . . 477

**Spleen, pancreas**

Cranio-caudal movements of the liver, pancreas and kidneys in respiration . . . . . 129
Effect of ioxaglate on the liver and pancreas following selective visceral angiography in man . . . . 395

**Peritoneal cavity, abdominal wall**

Herniographic appearance of contralateral inguinal hernia . . . . . 125
Herniography in patients with clinically suggested recurrence of inguinal hernia . . . . . 225
Detectability of intraperitoneal fluid by ultrasonography—An experimental investigation . . . . . 375

**Urogenital system**

Radiologic method to assess urinary bladder capacity and proportions in children . . . . . 33
Arthro-osteo-renal dysplasia—Report of a case . . . 39
Bladder capacity, urethral sensation and lumbosacral anomalies in children with enuresis . . . . . 45
Digital subtraction angiography in the preoperative evaluation of patients with a renal tumor . . . . . 101
Intrarenal backflow during retrograde pyelography following kidney transplantation . . . . . 113
Cranio-caudal movements of the liver, pancreas and kidneys in respiration . . . . . 129
Iohexol and metrizoate in urography in children—Comparison between a non-ionic and an ionic contrast medium . . . . . 155
Occlusion of renal arterial supply with absolute ethanol—Experience with 20 cases . . . . . 195
Computed tomography of ovarian carcinoma . . . . 203
Renoprival growth following treatment of unilateral Wilms' tumour . . . . . 231
Ultrasonography in complications of renal transplantation . . . . . 299
Renal function following nephroangiography with diatrizoate—Effects of saline, mannitol and diatrizoate on renal blood flow, glomerular permeability and filtration rate and diuresis in dogs . . . . . 343
Transcatheter embolization of splanchnic arterial aneurysms—Report of two cases . . . . . 391
Increased kidney size following renal angioplasty—A 'new' observation . . . . . 401
Effect of prostaglandin inhibition on the renal vascular response to ionic and non-ionic contrast media in the dog . . . . . 407
Ultrasonographic renal parenchymal volume related to kidney function and renal parenchymal area in children with recurrent urinary tract infections and asymptomatic bacteriuria . . . . . 411
Computed tomography in advanced carcinoma of the uterine cervix . . . . . 423
Subtraction nephrotomography during urography of transplanted kidneys . . . . . 495
Imaging of unilateral hydronephrosis in an experimental animal model—With special reference to magnetic resonance . . . . . 501

**Endocrine system**

Ultrasonic appearance of adenomatous and hyperplastic parathyroid glands . . . . . 471

**Breast**

Preoperative radiographically guided wire marking of non-palpable breast lesions . . . . . 13
Mammography is an objective diagnostic method . . 189
Mammographic fine needle biopsy of non-palpable breast lesions . . . . . 273

**Computed tomography**

CT staging of oesophageal carcinoma . . . . . 7
Measurement of background signals due to scattered and off-focal radiation on CT scanners . . . . . 73
Computed tomography versus aortography for preoperative evaluation of abdominal aortic aneurysm 95
E-Z-CAT—An oral contrast medium for use in computed tomography of the abdomen . . . . . 121
Intracranial hemorrhage in hemophilic children—CT follow-up . . . . . 161
Computed tomography of ovarian carcinoma . . . . 203
Femoral anatomy described in cylindrical coordinates using computed tomography . . . . . 209
Streak artifacts in dynamic CT—A phantom study of the anterior upper abdomen . . . . . 285
Intravenous computed tomographic cholangiography in acute cholecystitis—A comparison with conventional cholangiography . . . . . 289
Tibial torsion measured by computed tomography . 325

Sialography and CT-sialography in the diagnosis of parotid masses . . . . . 361
Unidentified liver metastases at ultrasonography or computed tomography . . . . . 385
Computed tomography in advanced carcinoma of the uterine cervix . . . . . 423
Computed tomography of the knee with reference to meniscal tears—A preliminary report . . . . . 433
High-resolution computed tomography of the osseous temporomandibular joint—Some normal and abnormal appearances . . . . . 465

**Ultrasound**

Three-dimensional ultrasonic scanning . . . . . 237
Ultrasonography in complications of renal transplantation . . . . . 299
Quantitative Doppler flowmetry—I—Construction and testing of a duplex scanning system . . . . . 305
Diameter and pulsatile oscillations of the femoral artery recorded by ultrasound . . . . . 313
Detectability of intraperitoneal fluid by ultrasonography—An experimental investigation . . . . . 375
Ultrasonography in the diagnosis of acute cholecystitis . . . . . 379
Unidentified liver metastases at ultrasonography or computed tomography . . . . . 385
Ultrasonographic renal parenchymal volume related to kidney function and renal parenchymal area in children with recurrent urinary tract infections and asymptomatic bacteriuria . . . . . 411
Ultrasonic appearance of adenomatous and hyperplastic parathyroid glands . . . . . 471
Ultrasound in preoperative staging of rectal tumours 489
Ultrasonographic examinations of muscle hematomas in hemphiliacs . . . . . 513
Quantitative Doppler flowmetry—II—Reliability of a duplex scanning system under in vitro conditions 535

**Nuclear radiology**

Clinical comparison of bone scintigraphy with $^{99}Tc^{m}$-DPD, $^{99}Tc^{m}$-HPD and $^{99}Tc^{m}$-MDP . . . 217
Ischemia of the childhood femoral and humeral head epiphyses following osteomyelitis—A hypothesis on its cause . . . . . 269
Technetium pertechnetate scintigraphy to detect ectopic gastric mucosa in Meckel's diverticulum . . 417
Recording of bone marrow activity in liver-spleen (RES) scintigraphy . . . . . 477

**Magnetic resonance imaging**

Magnetic resonance imaging of vascular lesions in children—Assessment of flow patterns . . . . . 449
Imaging of unilateral hydronephrosis in an experimental animal model—With special reference to magnetic resonance . . . . . 501

**Pediatric radiology**

Radiologic method to assess urinary bladder capacity and proportions in children . . . . . 33
Bladder capacity, urethral sensation and lumbosacral anomalies in children with enuresis . . . . . 45
Iohexol and metrizoate in urography in children—Comparison between a non-ionic and an ionic contrast medium . . . . . 155
Intracranial hemorrhage in hemophilic children—CT follow-up . . . . . 161
Renoprival growth following treatment of unilateral Wilms' tumour . . . . . 231
Hydrostatic reduction of childhood intussusception—The role of adjuvant glucagon medication . 261
Conventional abdominal radiography as a means to rule out ileo-caecal intussusception . . . . . 265
Ischemia of the childhood femoral and humeral head epiphyses following osteomyelitis—A hypothesis on its cause . . . . . 269
Ultrasonographic renal parenchymal volume related to kidney function and renal parenchymal area in children with recurrent urinary tract infections and asymptomatic bacteriuria . . . . . 411
Technetium pertechnetate scintigraphy to detect ectopic gastric mucosa in Meckel's diverticulum . . 417
Magnetic resonance imaging of vascular lesions in children—Assessment of flow patterns . . . . . 449

**Interventional radiology**

Occlusion of renal arterial tumor supply with absolute ethanol—Experience with 20 cases . . . . . 195
Mammographic fine needle biopsy of non-palpable breast lesions . . . . . 273
Segmental hepatic arterial occlusion with absolute ethanol in domestic swine . . . . . 331
Transcatheter embolization of splanchnic arterial anerysms—Report of two cases . . . . . 391
Increased kidney size following renal angioplasty—A 'new' observation . . . . . 401

**Experimental radiology**

CSF cation changes following subarachnoid injection of iohexol and metrizamide in rabbits . . . . . 65
Diazepam, alpha and beta neurotransmission modifying drugs and contrast media mortality in mice . 249
Segmental hepatic arterial occlusion with absolute ethanol in domestic swine . . . . . 331
Renal function following nephroangiography with diatrizoate—Effects of saline, mannitol and diatrizoate on renal blood flow, glomerular permeability and filtration rate and diuresis in dogs . . . . . 343
Effect of prostaglandin inhibition on the renal vascular response to ionic and non-ionic contrast media in the dog . . . . . 407
Imaging of unilateral hydronephrosis in an experimental animal model—With special reference to magnetic resonance . . . . . 501
Lumbar myelography with metrizamide in rabbits—An investigation of contrast media penetration and resorption . . . . . 517
Age related changes in tumor vascularity—Angiography and vascular casts of the $VX_2$ tumor in the rabbit hind leg . . . . . 529

**Contrast media and other drugs**

Bronchial and intercostal angiography with ioxaglate and diatrizote in man—A comparative investigation . . . . . 49
Method for assessment of the reporting strandard of clinical trials with roentgen contrast media . . . . 55
Evaluation of the vascular clinical trial program of metrizamide and iohexol . . . . . 59
CSF cation changes following subarachnoid injection of iohexol and metrizamide in rabbits . . . . . 65
E-Z-CAT—An oral contrast medium for use in computed tomography of the abdomen . . . . . 121
Omnipaque and Urografin in arthrography of the knee . . . . . 151
Iohexol and metrizoate in urography in children—Comparison between a non-ionic and an ionic contrast medium . . . . . 155
Iohexol in coronary angiography—A double blind investigation . . . . . 243
Diazepam, alpha and beta neurotransmission modifying drugs and contrast media mortality in mice . 249
Iopromide—A new non-ionic contrast medium . . . 253
Psychologic tests in the evaluation of psychic changes after myelography with metrizamide . . 257
Kinin activation as a predictive assay for adverse reactions to radiographic contrast media . . . . . 337
Lumbar myelography with iohexol and metrizamide—A double-blind clinical trial . . . . . 365
Psychic changes following myelography with metrizamide and iohexol—A comparative investigation with psychologic tests . . . . . 369
Effect of ioxaglate on the liver and pancreas following selective visceral angiography in man . . . . 395
Effect of prostaglandin inhibition on the renal vascular response to ionic and non-ionic contrast media in the dog . . . . . 407
Lumbar myelography with metrizamide in rabbits—An investigation of contrast media penetration and resorption . . . . . 517
Tolerance and biochemical effects from intravenous injection of ioxaglate in healthy volunteers . . . . 523

**Physics and technique**

Preoperative radiographically guided wire marking of non-palpable breast lesions . . . . . 13
Measurement of background signals due to scattered and off-focal radiation on CT scanners . . . . . 73
Three-dimensional ultrasonic scanning . . . . . 237
Mammographic fine needle biopsy of non-palpable breast lesions . . . . . 273
Quantitative Doppler flowmetry—I—Construction and testing of a duplex scanning system . . . . . 305
Visual detection and physical characteristics of roentgenographic systems—Investigation on chest imaging chains . . . . . 439
Quantitative Doppler flowmetry—II—Reliability of a duplex scanning system under in vitro conditions 535

**Miscellaneous**

Radiographic demonstration of a liquid surface bounded by a partially wettable solid surface . . 81

**Book reviews**

Kontrastmittel in der Röntgendiagnostik . . . . . 159
Multiple choice questions in imaging sciences . . . 159
Cranial ultrasonography of infants . . . . . 159
Ultrasound in inflammatory disease—Clinics in diagnostic ultrasound . . . . . 351
Atlas of sectional anatomy—Head, neck and trunk . 351
Body CT—A handbook . . . . . 351
Basic clinical ultrasound . . . . . 352
